White Shirts Protest

Martin Luther Koon

Have you ever walked twelve blocks deep into an all nigger neighborhood in New York City? That's pretty dangerous in itself! But.....have you ever tried it as an American National Party White Shirt, carrying anti-race-mixing picket signs?

That's just what a squad of ANP members did when Martin Luther Koon (King) came to New York to stir up the niggers of South Jamaica Queens, a neighborhood well known by Police for its extremely high rate of crime. We would have sent our squad-in by automobile, but, whether you can believe it or not...the truth is that we didn't have enough money between us to fix a flat that we had gotten that very night.

The police, with mouths dropped

ENGLEWOOD REFUSES PERMIT FOR ANP RALLY

In complete disregard of the basic right of free speech, the city of Englewood New Jersey last month denied our Party Leader the right to speak against Communism and race-mixing in McKay park. The "reasons" for the denial were sent to us in a telegram which stated that because Party Leader Patler "was not a resident of Englewood and because of other valid reasons the permit is denied". But black agitator, Paul Zuber who is also NOT a resident, WAS permitted to speak against white people. Apparently whites don't have rights in Englewood. They let Zuber speak, but they jail Patler!

YOU CAN LEARN HOW TO KILL WHITE MEN FOR ONLY 60¢

"What should killing a white person mean to me except thank God there's one less in the world," says the author of one of the current books* that tell how the nigger aims to deal with the white man.

These books describe how the niggers want to kill the white man, and how they actually believe that the white woman "desires" them, that she "wants" to cross the color line but just won't admit it.

According to the nigger, when he finds a white man alone he can kill the white man with his "superior" strength; and if there is a car handy, he will run it over the dead white man's body a few times just for good measure--the way two niggers in New Jersey last year drove back and forth over the bodies of the white women they had raped and killed.

Trick-or-Treating, Girl, 10, Attacked

A 10-year-old girl, out trick-or-treating with her younger cousin, was criminally assaulted last night by a gun-wielding teenager who slapped her into submission each time she tried to escape.

Her cousin, an 8-year-old boy, was threatened with death if he called for help.

When the attacker released the children after the half-hour assault, they ran to their grandmother's home. The little girl, a blue-eyed, chubby blonde, was rushed to Queens General Hospital with internal injuries.

In the corridor the girl looked at the detective without a flicker of emotion in her blue eyes. Then she whispered: "That's the man."

And a few minutes later, according to police, 16-year-old John E. West of 183 13 Mangin Ave., St. Albans, admitted he was the gun-wielding teenager who had criminally assaulted the girl Halloween night.

JOHN PATLER ANSWERS

some important questions about the

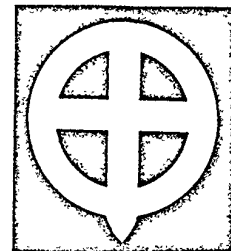

American National Party

What is the American National Party, and why was it formed? ~~SEP 1 - 1962~~ "W"

The American National Party is America's White Working Man's Party. It is a nation wide movement of white working men and women who are dedicating themselves to the task of stopping all race-mixing, and of defending and protecting white civilization from the attacks of the black criminal menace in the United States. 2. The American National Party was formed to solve the black problem once and for all time and to insure the future survival of the white people and their society.

What does your symbol stand for? Why do your members wear White Shirts? Why are the White Shirts organized along semi-military lines?

The symbol of the American National Party is called the Sun-Wheel Sword. It stands for white western civilization, racial nationalism and militant anti-Communism. It is the white man's symbol of the future.

The uniform of the American National Party is a white shirt. A black armband with the party symbol, in white, is also worn. The white shirt represents our race, and the unbuttoned collar stands for the working man.

We are organized along semi-military lines for the purpose of defense and protection from the attacks of the blacks, Communists and other anti-white criminals who seek to answer our arguments by force and violence.

Does the American National Party advocate the extermination of the black race in the United States?

The American National Party advocates the death penalty for all black criminal traitors, and all Communist traitors. If the Communists can freely advocate the violent overthrow of our government, which includes killing; and if the Black Muslims can advocate the annihilation of the white people; then the American National Party can advocate the complete extermination of the niggers and other non-whites, if we so choose.

What does the American National Party advocate as a solution to the race problem?

As a solution to the race problem, we advocate the complete geographical separation of the white people and the black race. This simply means the transfer of non-whites to a suitable area in Africa

THE AMERICAN NATIONAL PARTY

AMERICAN NATIONAL PARTY

that they can call their own. Most white Americans immediately think this is impossible. They have been told such a venture is physically impossible. We believe the opposite. During World War II, the U.S. sent more men and materials overseas, than the number of blacks there are presently living in the United States, and all their material possessions. This transferring of millions of men and material did not upset the economy -even though it was done more rapidly than would be necessary for the transferral of all blacks to their homeland. All the money now being wasted on foreign aid to ungrateful and pro-Communist nations would be properly used to finance the migration of the black people to Africa. At present, the above appears to be the best solution. However, a more efficient solution to the black question may be found.

Why is the race question so important? Why are you against integration as a solution to the race problem?

First of all, we recognize the importance and the necessity of race in the history of nations and civilization. We further recognize that throughout history, the white people alone have been responsible for the creation of all superior cultures and civilizations. Therefore, we believe that in order for our civilization to survive, and not perish, as other great civilizations before us, it is absolutely necessary that the white people survive as a race, maintain and propagate themselves and NOT integrate with less gifted people such as the black race.

At this moment, the white people of the United States are under attack by the black criminal menace aided by the forces of international Communism. These black agitating troublemakers seek to force the white race to destroy itself by integrating with non-whites. We will never accept racial integration. Integration is race suicide. It will result in the death of our people and of our civilization. Integration is a slow but sure death...and that is why it is difficult to recognize. Segregation is another thing we will not accept. Placing white men on one side of the street and blacks on the other is not enough. Segregation is not an adequate solution. What we seek is the complete removal of the black race from our nation. The niggers have pushed us, abused us, have criminally attacked our women and children, and have arrogantly agitated the white people to the point where it has now become utterly impossible for white men and black men to sit down and talk peace. There is no more room for talk. We are far beyond the stage of talking, and there can be no return.

How do you differ from Rockwell's "American 'Nazi' Party"?

Unlike Rockwell, the American National Party WILL NOT be SOFT on the nigger question. There are enough white men in America to win back our nation and preserve white civilization without having to pander to the black population, or the anti-white Black Muslims as Rockwell does. The only reason Rockwell is known at all is because he uses the swastika. Any group could be catapulted to instant "fame" and become widely known by the use of a very radical symbol such as the swastika, the fasces, or even the hammer and sickle. In Rockwell's

case, his emblem does not represent his true political stand. Rockwell is a make-believe Nazi. The American National Party is not interested in publicity stunts. We are a serious political movement of white working American's dedicated to saving and protecting white civilization by legally coming to power in the United States. Rockwell and his use of the swastika and his imitation Nazism will never be accepted by the American people. Without the swastika and his living off the past glory of men greater than he could ever hope to be, Rockwell would be revealed as nothing more than a SOFT, nigger-loving liberal.

Who are you, and what are your qualifications as leader of the white man's movement in the United States?

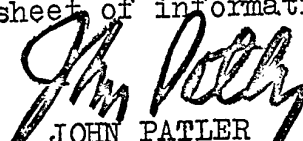

My qualifications are simple. I am the only white leader in the United States to stand up and advocate an extreme radical idea for the solution of the race problem. I do not believe the white people owe the niggers anything. I was born and raised on the tough East side of New York City, January 6th, 1938. My folks were too poor to move, so I spent most of my childhood on the streets of Harlem. Thanks to this difficult upbringing, I was able to learn and understand the plain white working people and their true desires. During my senior year at High School, I enlisted in the U.S. Marine Corps. I served as an infantryman with the 2nd Marine Division and made the grade of Private First Class. After nearly three years of service, I was prematurely discharged (under Honorable Conditions), because of my anti-integration and anti-Communist activities during my off-duty hours. I subsequently spent several years in right-wing organizations, and finally realizing that none of them had a real, firm solution to the black menace, I came back to New York where, with several loyal followers, we founded the American National Party on November 22nd, 1961. I am married and the father of two young boys. I do not drink and I do not smoke.

What do the blacks really mean when they speak of "rights", and "freedom", and why do they always accuse the white people of "prejudice, etc."?

When the niggers speak of "rights", they speak of the "right" to push themselves on the white people. When they speak of "freedom", they really mean "freedom" to take our women, and "freedom" to destroy our civilization. "Rights" and "freedom" were the same slogans used by the black criminals in the Congo, and we all saw what they meant. The niggers in America hide behind pretty slogans, the bible, and the church. The only reason they don't say what they really want, is because they are still outnumbered in the U.S.A. In the Congo, they were in the majority. Whenever the white man tries to stop the nigger, or defend himself, he is accused of being "prejudiced" and is thus placed on the defensive and develops a guilt complex. The white man is made to feel that he is responsible for the niggers' own shortcomings.

Fellow white men! I have attempted to briefly answer some of the more important questions frequently asked about our movement. In the near future we will publish a more lengthy sheet of information.

To this cause, I dedicate my life

WE BEAT THEM SOO BAD... THEY SMENIE US
New Hunting Grounds For Hatred

By ERIC HARTELL

"Little attention" was paid to John Patler Saturday in Englewood. He was a pathetic prelude to a dull antisegregation rally. Newsmen licked their lips when they saw him strutting along Englewood Avenue; here might be their story. But the race riot never happened. Patler was allowed only 15 minutes to lure some one to hit him, and no one did. The veteran policeman Captain Elbert Earley saw to that.

John Patler, who preaches white supremacy and who at age 24 believes the world is imperiled by the Negro and the Jew, was given his Constitutional right as an American to free speech. And after that quarter hour Captain Earley figured any continuation of the farce might give the crowd of no more than 100 a chance to get worked up. Earley deemed Patler to be disturbing the peace. He gave the sick boy a chance to pack his filthy placards and leave town. Then Earley arrested him.

Brand New And Ugly
There have been outsiders involved all through this long and tired conflict in Englewood, but Patler is something utterly and repulsively new.

The neofascist peacock introduced into Englewood's woes an element every one hoped would never appear. He hates. Openly, wantonly, and with no shame, John Patler speaks repugantly of his racial phobia. Negroes are subhuman, he says.

The confused City of Englewood has its faults, and its residents have been targets of continual criticism for their inability to find peace on this question of racial imbalance in schools, but the Negroes of Englewood aren't hated. Nor do the Negroes hate the whites. That point is clear.

John Patler came to Englewood from Jamaica, Long Island, to show the whites they must hate the Negroes. Doubtless he needed a travel guide to find his way to Englewood. He didn't just drop by; he came on purpose, because he had heard of Englewood.

The Record and other northern New Jersey and Manhattan newspapers aren't the only ones carrying Englewood stories. The City now is known to editors and news directors around the country. John Patler learned his special brand of venom from America's own Hitler, George Lincoln Rockwell. As a teen-aged enlisted man in the Marine Corps he began his association with Rockwell, who at the time boasted he had a Marine as his storm-trooper chief.

After the Corps warned Patler not to wear his uniform while hobnobbing with Rockwell, it quickly and unceremoniously ushered him out of the service. Then after picketing "Exodus" in New Orleans and Boston and being arrested each time, Patler differed with Rockwell, raided the Nazi's camp, and came to New York with six other former Rockwell followers. In November last year they set up his American National Party.

That Liberal Rockwell
"Rockwell wasn't tough enough with Negroes," Patler said of his onetime idol.

So Patler now has his own brand of sickness. If whites don't look out, he says, the Negro will take over. America is the last stronghold of whites capable of averting black supremacy, he preaches. One charge of disturbing the peace against Patler in Englewood results from his pocket-sized pamphlet "Kill". In it Patler calls for the impeachment of President John F. Kennedy. He calls Kennedy a traitor to America because he gives aid to Negroes, among others.

The pipsqueak came to Englewood to show the whites the error of their ways. The slight, dark-haired, waxen-faced fanatic, who considers Rockwell soft on Negroes, felt Englewood should know his poisonous gospel. He informed police he was

coming, and they made preparations. Prosecutor Calissi, Sheriff Ferber, County Police Chief Lo Presti, the State Police, and volunteer ambulance crews, police reservists, Civil Defense personnel, and regular cops from all over northern Bergen were alerted and participated either actively or on a reserve basis throughout the terrible day in Englewood.

Seven punk little tin gods prompted these endless preparations by responsible public officials seeking to avert disaster for Englewood. What did this cost in cold hard cash? What will it cost Englewood in added months of strife among its residents?

If John Patler came to Englewood Saturday, who is coming next week?

In Jail Hunger Strike 3d Day

John Patler, 24, leader of the extreme right-wing American National Party, today enters the third day of a self-imposed starvation diet in Hackensack jail.

Sentenced to 10 days for disorderly conduct during an anti-segregation rally in Englewood last Saturday, Patler has not eaten anything since Tuesday, jail officials said.

Patler, who lives at 85-98 Parsons Blvd., Jamaica, Queens, was given moral support last night by a follower, Ralph Grandinetti, 25, of New York.

Wearing black trousers, a white shirt, an armband emblazoned with the party insignia and carrying a sign reading "Free John Patler," Grandinetti walked back and forth quietly for 40 minutes outside the jail.

He then went home. "Probably to eat a good dinner," observed a policeman.

10 Days In Jail Given Anti-Negro Leader

Englewood — The 24-year-old leader of an anti-Negro hate group was jailed for 10 days today by Magistrate Henry J. Bendheim on two charges of disturbing the peace Saturday at a Negro antisegregation rally.

John Patler of Jamaica, N. Y., announced after the court decision that he would not eat while in the County Jail, and that he would seek the advice of the American Civil Liberties Union on the possibility of an appeal.

Three of Patler's so-called storm troopers who were present at the court session said afterwards they would picket the jail in Hackensack tomorrow night.

Patler, the leader of the American National Party, contended his Constitutional right of freedom of speech was violated.

Bendheim noted in his decision, "You came here from Jamaica, (continued on page 14, column 5)

Doctor Reports Jailed Racist In Excellent Health

Hackensack — John Patler, 24, head of the anti-Negro American National Party, today entered the seventh day of his hunger strike at the County Jail where he is serving a 10-day sentence for disturbing the peace at a Negro antisegregation rally in Englewood.

Patler was committed to jail last Wednesday. The Jamaica, N. Y., resident, who has lost 8 pounds while in jail, is to be released Friday. Sheriff Martin J. Ferber said the prisoner has been examined by a doctor who reported him in excellent condition.

LI Racist On Hunger Strike

John Patler, 24, of Jamaica, leader of an extreme right-wing group that picketed an anti-segregation rally in Englewood, N.J., last weekend, today said he will go on a hunger strike in jail.

Patler, leader of the American National Party, has been sentenced to 10 days in jail on charges of disturbing the

N. Y., for the express purpose of causing an incident or race riot."

Speaking in his own defense, Patler contended before Bendheim, "No matter how objectionable people find my views I still must be guaranteed my rights to express them under the First Amendment to the Constitution."

John J. Breslin of Hackensack, Acting City Attorney, argued the right of free speech is not absolute. He said restraint and reason must be applied in this issue.

Breslin described Patler as an agitator from New York, who came to Englewood with only one thought in mind — to make trouble.

The State's only witness was Captain Albert Earley who described the circumstance of the Patler demonstration which he said caused him to believe a disturbance was in the making.

Breslin entered into evidence the armband worn by Patler and the black and white placard he carried, bearing the phrase, "Whites Have Rights!"

Bendheim sentenced Patler to 5 days in County Jail on each of the two convictions, with the sentences to run consecutively.

Charles Feureisen of Oradell, New Jersey State Commander of the Jewish War Veterans of the United States, told Bendheim the organization supported Breslin's comments.

Patler Persists In Hunger Strike

Hackensack — In his last day of confinement at County Jail, the 24-year-old neofascist leader John Patler today continued his hunger strike. Patler has not eaten in 9 days.

The anti-Negro leader was sentenced last week to 10 days on 2 counts of disturbing the peace at a Negro antisegregation rally in Englewood. He will be released at 8 A. M. tomorrow.

peace.

Three of his followers said they would picket the Bergen County Jail in Hackensack tonight.

PATLER conducted his own defense yesterday at his hearing before Magistrate Henry Bendheim.

"No matter how objectionable you may find my views, I still have the right to express them under the First Amendment of the Constitution," he

Patler Refuses To Eat In Jail

Hackensack — John Patler, 24-year-old leader of the racist American National Party, has refused all meals since his commitment to County Jail yesterday.

Sheriff Martin J. Ferber said this morning he will continue to offer Patler food as he does every other prisoner throughout the day and will let the former George Lincoln Rockwell associate accept it or refuse it as he wishes.

Patler yesterday was sentenced to 10 days in jail by Englewood Magistrate Henry J. Bendheim. He was found guilty on two counts of disturbing the peace Saturday while counterdemonstrating at the Negro antisegregation rally in Englewood.

Bendheim called Patler a rabble-rouser and said Patler had come to Englewood for the express purpose of causing a disturbance or race riot.

A handful of followers who attended yesterday's trial said they will picket tonight at County Jail. Ferber has said he will not interfere as long as the demonstration is peaceful and does not disrupt the operation of the jail. State Education Commissioner Dr. Frederick M. Raubinger and received assurance the commissioner's office would assist the Englewood Board of Education in any way possible in working out a plan.

Hughes and Volk discussed the school situation for 45 minutes.

said.

Patler said his conviction would also be a conviction of the Constitution.

Patler was arrested last Saturday just before an anti-segregation rally in Mackay Park. He was convicted on charges of attempting to distribute anti-Negro literature and for continuing a counterdemonstration after police ordered him to stop.

Bendheim, in imposing sentence, said it was the court's opinion that Patler had come to Englewood for the expressed purpose of causing trouble.

Patler was accompanied by six of his followers in picketing the rally. The others left when ordered by police.

RACIST CONTINUES TO FAST IN JAIL

Patler Still Curbing Appetite While Serving Term

Hackensack — John Patler, jailed leader of the neofascist American National Party, was still adhering to his self-imposed fast today.

Since his commitment to the County Jail on Wednesday, the 24-year-old racist leader has refused five meals. He pledged the hunger strike during his jail stay when he was sentenced to 10 days by Englewood Magistrate Henry J. Bendheim.

Patler was convicted on two counts of disturbing the peace at last Saturday's Negro antisegregation rally in Englewood.

A party lieutenant, Ralph Grandinatti, 24, also of Long Island, picketed the jail for 40 minutes last night. He carried a sign reading, "The American National Party. Free John Patler."

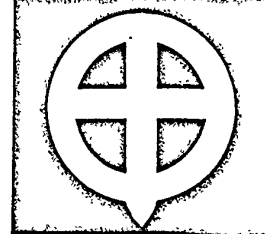

Party Chairman Sentenced

In another development, John Patler, 24-year-old chairman of the American National party, was found guilty today on two counts of disorderly conduct stemming from a counterdemonstration against the Zuber rally.

He was denounced by Magistrate Henry J. Bendheim as a "rabble rouser" who had come here from Jamaica, Queens, "for the expressed purpose of creating a disturbance or a riot." Mr. Patler lives at 85-98 Parsons Boulevard, Jamaica.

The Magistrate sentenced Mr. Patler to five days in Bergen County Jail for failing to stop picketing on a police order and five days for distributing his party's publication "Kill."

Ralph G. Grandinatti of Queens Village, national organizer of the party, assailed the sentence as an "abatement of Mr. Patler's rights." He said that the American Civil Liberties Union would be asked to intervene to protect Mr. Patler's rights and that the 85-member party would picket the county jail tomorrow night.

We're back in business....

Most of you who are receiving this issue of KILL magazine have probably also received a copy of KILL, in its original format, showing a picture of Mussolini on the cover. That issue carried a statement that KILL magazine had suspended publication and was going out of business. This is not true. While our editor was in jail, Dan Burros tried to sabotage our magazine and put it out of business. He managed to trick Ralph Grandinetti (formerly associated with us) into turning over the layouts of issue No. 3, our mailing list and other material, to him. He then went to work and added his "touch" and the statement that we were suspending publication. He made sure his name did not appear anywhere in the issue so that no one would suspect he was behind it. This vile, sneaky and unmanly act FAILED, as all cowardly acts usually do.

KILL changes size for awhile

All our readers enjoyed the handy size KILL magazine was originally. Because we simply do not have the money to publish it in its original format, we had to print the entire contents by nineograph, and only the cover by offset. We hope to return to the original format shortly.

Sorry we got behind....

To all those good people who have written and sent in money

for Kill magazine and who have as yet not received any reply or have not had their orders filled, we ask you be patient a little while longer. If we are unable to fill your orders, we will return your money.

Kill magazine is sold at 50 cents a copy. Send orders to: Box 191, New York 28, N. Y.

Special Note of Thanks...

Many people, unconnected with the Editor, contributed money to help get him out of jail. Their generous gifts did just that.

Among the many people who helped were Mr. G.S. of Hempstead, N.Y., Charles Smith of The TruthSeeker, Mr. Whitey Mason, Mr. E. at Conde McGinley's, Mrs. G. of Staten Island, Miss S.M., Mr. Marty D., Mr. Frank Birdsall of Newburgh, Mr. John Maher, Pete Krauss, and all the good people who attended Bill Hoff's meeting and contributed, and especially to Miss Betty Shepherd without whom our Editor's freedom would not have been realized. From the bottom of our hearts, we thank you.

UNITY PAYS OFF!

On Thursday, January the 3rd, three days before my 25th birthday, Jew Judge Schwartz of the Dutchess County Court, State of N. Y., squirming in an effort to save face, granted and sustained a Writ of Habeas Corpus in the case of The State of New York vs. John Patton. With that, I walked away a free man after spending 54 days in the Dutchess County Jail House. Fifty-four days before, I had been arrested in Hyde Park at the sight of Eleanor Roosevelt's burial with a sign which read: "Ship Her Smelly Corpse Back To Moscow!"

Unfortunately, but not unexpected, there were many of our own people who criticized my action, stating I should have been more "discreet". I wonder how "discreet" the Reds have been in their efforts to destroy our leaders...anyone-remember Joe McCarthy? How "discreet" were the Reds when they attacked him? Actually, this criticism is but another excuse for their own lack of courage to do what I did, or what should be done, if one claims to be a fighter. I will never cease to be amazed at the countless 'reasons' the right-wing finds to excuse its cowardice and inability to act! As far as I am concerned, IT WAS MY DUTY TO GO TO HYDE PARK AND NOT LET THAT RED BITCH BE BURIED IN PEACE!

There were even a few nuts (which, unfortunately, the right-wing is well supplied with), who even wrote to me and said I was a Red agent because the Civil Liberties Union helped me by filing an Amicus Curie brief supporting my Writ of Habeas Corpus. Of course, the ACLU helped me, but the nuts who wrote in didn't. Yesterday, I gave an old nigger pan-handler a dime...I guess that makes me a nigger-lover?

The most wonderful thing about my case is that my freedom was brought about by a dozen or more racists, who, although not connected with me and under no obligation to me, nevertheless pitched in and helped to scrape together enough money to get me out. I will forever be indebted to these wonderful people. And especially, I will be indebted to Miss Betty Shepherd without whom nothing would have been accomplished. Miss Shepherd is the most unselfish woman I have ever had the honor to know. Only one other person equals her in unselfishness. He is Schuyler Ferris, a Storm Leader in the American Nazi Party who bought a Volkswagen Bus, on time, to loan to the Party during the famous "Hate Bus" campaign in the South, plus turned over his 1961 Chevrolet to be used on the 2000 mile tour.

The conduct of those who helped to free me demonstrates how effective the right-wing can be working together. People from many different groups helped me, not because they supported my particular organization, but because in spite of different organizations, I was one of them!

When you look over to the left-wing, you will find no sign of internal fighting. No bickering. No squabbling. No conflict, in spite of a dozen different groups and factions. They march together, from the sanctimonious National Council of Churches to the despicable Jew-traitor Morton Sobel! Meanwhile, in the right-wing, we have a different picture completely. Here we have a myriad of factions bickering, squabbling and fighting one another. While we waste time, money and energy fighting each other, the left advances steadily and united

STARTLING EXPOSE OF A RIGHT-WING FINK (The story of Dan the Fink)

RYAN WAS RIGHT! Throughout history, all great movements and causes have had their informers and traitors. The Racist movement is no exception. Washington had his Benedict Arnold, and we have our Dan Burros! What you are about to read is perhaps the most startling account of betrayal to ever come out of the movement. Many will be surprised, if indeed not shocked. I want to remind the reader that the editor faces arrest on charges of Criminal Libel if he is not telling the truth. The first person to shed light on the treasonous activities of Dan Burros, was Capt. Seth Ryan of the American Nazi Party. Not until the writing of this exposé would Seth Ryan realize

HOW RIGHT HE WAS!!

At 201 East 69th Street, in New York City, there is located the N.Y. Hdqrs of the Federal Bureau of Investigation. In one of its many offices sits Agent Brody. His job, among other things, is to keep a close surveillance on all right-wing and racist activities. Like all police authorities, Agent Brody depends a great deal on information supplied by informers. Agent Brody has a well qualified and willing squealer to provide him with information about racists and their activities. This particular informer is valuable because he has been above suspicion in racist circles. He has a fair amount of prestige, he doesn't act like anything else except a sincere patriot, and above all, he has the ability to win your friendship and trust (a good means of procuring information). This then is Dan Burros, the Fink.

Among other things, so loyal to the cause, Burros has helped to pinpoint, on a specially prepared map, the homes and place of work of racists; identified their photos; handed over copies of original letters, notes and other innumerable amounts of data for dossiers kept by the FBI. But the most despicable thing about Burros is that while pretending to be a National Socialist, a racist and an idealist, he has been feeding the Federal Government with LIES designed to DESTROY patriots!

Its one thing to "cooperate" with the FBI, but it is entirely another matter to consciously LIE and give false information that can only HURT our side. We must remember that although the FBI is neutral, and MUST enforce the law, right or wrong, the Federal Government is now in the hands of Marxist Kennedy. Little Bobby Kennedy is in complete charge of the Justice Department which makes him the boss of J. Edgar Hoover and the FBI. Little Bobby is just waiting for a good chance to smash the racist movement. And when someone purposely seeks to give him that chance, he is our enemy and a traitor to this sacred cause.

Now comes the most damning evidence of all...(the accounts are numerous, so I have restricted myself to some of the more important attempts by Burros to do damage to our people).

1. Burros falsely informed the FBI that Rockwell and Ryan were sending up three of their toughest Storm Troopers to physically attack Luke Dommer, leader of the Nationalist Party. According to Burros, Seth Ryan was to lead this attack. The FBI immediately put a "tail" on Ryan and his men. Actually, Ryan and his men were in New York merely to picket against the Reds. Burros also squealed to the FBI that the local

DAN THE FINK (continued)

Police Captain had warned Commander Rockwell in advance that the FBI had received word that his men were going to N.Y. to break the law and that the FBI was watching. Needless to say, the FBI cracked down on the Police Captain. Burros' scheme to crush the Commander failed. But, he wasn't giving up

2. In 1960, a scandinavian racist entered the United States on a tourist visa. He was touring the U.S. visiting racists and nationalists. He specifically asked that his identity be kept secret, otherwise he would be prevented from making a future return trip, and that disclosure of his identity would cause him great trouble in his homeland. Mr. X, (as I will refer to him), visited Nazi Hdqrs in Arlington, Virginia at the time we were celebrating Hitler's birthday. No one knew Mr. X's real identity except a few trusted party members. During the party, a photo was taken of everyone around the cake. Mr. X was in that photo. Somehow, Burros got a hold of that photo. When he began his squealing to the Feds, the FBI was very interested in Mr. X and wanted any information they could get on him. Dan the Fink not only gave all the info they wanted, but he also gave them the picture of Mr. X. What happened to Mr. X, I do not know. We never heard from him again.

3. Burros told the FBI that Commander Rockwell stated to him and others that J. Edgar Hoover, Chief of the FBI, was a queer. A lib designed to cause animosity between Rockwell and FBI agents whose respect he had won.

4. Also in 1960, Burros and I were arrested while picketing in front of the white house on charges filed by the Anti-Defamation League for putting up swastika stickers in their national hdqrs building in Washington. My wife and Roger Foss finally got us out on bail. We went to trial by jury. Our lawyer thought of the idea of proving our innocence by taking a lie detector test. The Fink didn't want to take the test.

Once again, in an effort to destroy the fighters in our cause, Burros went to the FBI and falsely told them that Rockwell had encouraged him to take the test and offered to get us tranquilizers to beat the lie detector! The Commander did no such thing. There was no "conspiracy to commit perjury" as Burros hoped they would nail Rockwell with.

There are a dozen more instances of even more treacherous acts of betrayal and treason that I can relate. I have limited myself to a few of these so that you can become enlightened to this despicable creatures efforts to destroy our cause and the people in it. Burros' behavior raises serious doubts as to his patriotism. I have no proof, as yet, that he is an enemy agent...but his actions point in no other direction!

BOYCOTT BURROS! It is our duty, regardless of different organizations to which we may belong, that we isolate and ostracize Burros as a dangerous bacilli. We must not allow any feeding grounds for this parasite to thrive in. Lets freeze him out and render him harmless!

THE SECRET ARMY ORGANIZATION....ITS FUTURE....

The Secret Army Organization (O.A.S.) lost in Algeria only because it was limited in size and lacked supplies, ammunition, etc. In any event, we have not heard the end of this daring organization.

In France, where De Gaulle has virtually established a dictatorship, the O.A.S. has split into two factions. One faction has given up violence as a means of gaining power, whereas the other faction still retains the belief that only through organized violence will their aims be realized (assassination of De Gaulle, etc.)

Because the O.A.S. has been the organization of white men to take up arms against tyranny in recent times, while others talked and allowed themselves to be pushed around (witness the Belgians in the Congo who didn't even protect their women from being raped by black savages), it has occurred to us that, with a little organizing, the O.A.S. could very well start an armed offensive against the Communist conspiracy on a world wide basis.

Here, briefly, is a rough plan of how such an enterprise would proceed. First, it would be imperative to locate a country in which O.A.S. members would not be subject to arrest and persecution. A country such as Spain would be ideal. Here, the O.A.S. which is comprised of many brilliant ex-officers of the French Army, could set up an International Racist School of Revolution. White men from all over would be trained here in both legal and armed revolution. Money for the enterprise would be supplied from money stolen from Jew banks on the European continent. After training, agents would then be sent into red occupied nations to start revolts and organize opposition. The school would in effect, act in opposition to the schools in the Soviet Union which trained the likes of Castro, Lumumba, Ben Bella and other red swine who, in one way or another, created red revolutions in their native lands as a result of their training.

Could you imagine the consternation of the Reds with bands of O.A.S. Commandos on the loose, sabotaging, assassinating, and causing revolt in their satellite nations? Wouldn't it be good to see Tito, Ben Gurion, or some other swine get a bullet between the eyes? An enterprise such as setting up a white man's revolutionary school may be just the thing to begin turning the tide on the world communist takeover.

The men in the O.A.S. are highly qualified professional men, and with their experience, they could teach us all a lot. Lets hope they are considering such a plan...we can sure use it. Long live the O.A.S.

WHAT PRICE, THE BLUE LINE?

A little before your editor was locked up in Poughkeepsie, he had the misfortune to view the Stueben Day Parade. A lot of fuss was raised when the city refused to run a blue line down the route of the parade. Finally, the Stueben Society got their 'blue line'. But at what price I soon discovered. Forty percent of the "German" parade was of niggers and assorted half-bred spics. I heard some good German marching music in the distance...when the music came closer, I found it was being played by a nigger band!! And, to add (continued)....

insult to injury, a 100% German band marched by playing the theme song from "Exodus"!! There were a few good parts to the parade. That consisted of the German Sports Clubs. Here one could see some very good specimens of Germanic manhood. I don't believe most of the Germans who marched in the parade realized that they were marching along with Zulus and Hottentots.

Well...what can one expect in the Jew capital city of the world. I could only imagine what the Stueben Society must have gone through to have a "German" parade in New York City.

THE AMERICAN NATIONAL PARTY IS DISSOLVED!

To many of you, my decision to dissolve the American National Party may come as a surprise. My decision was not made in haste. It comes as the result of the deepest heart probing and soul searching that I have ever undergone.

As most of you know, I have attacked Lincoln Rockwell and the American Nazi Party and have tried to destroy them. I believed that Rockwell was a phoney and an agent. I believed all the lies that are being circulated to destroy him....until one thing happened...I went to jail for 54 days.

Those 54 days I spent in the Dutchess County Jail turned out to be the best 54 days of my life. In the solitude of my cell, I found myself. From that prison cell I was able to wash away more than two years of stupidity, immaturity, misunderstanding, misguidance and ignorance. There, behind bars for 54 days, I did something I had not done in two years... THINK! To understand and find the reasons to explain to myself how, one of the most devoted disciples of Lincoln Rockwell and National Socialism came to lose faith, attack and seek to destroy his leader with whom he once faced death before the enemy. I had come to New York to form a new movement, mistakingly broken hearted that I had been deceived and that Rockwell was insincere.

In that cell, I discovered the reasons behind it all. I discovered that I had been totally WRONG! and that I had been mistaken about the Commander and the men around him.

As a result, I can no longer find it in my heart or my conscience to continue as a separate entity, adding one more useless group (in which I participated solely because I had lost my belief in Rockwell) to a myriad of others, and further impede the advance and triumph of the only true movement the American Nazi Party. I therefore dissolve the American National Party.

So that all may understand how I came to make this decision, I think it is important that I explain just how I was turned from a dedicated believer in Lincoln Rockwell to a non-believer, and how, finally, I was able to find my way out of this mistaken notion.

In general, the blame can be attributed to simple human weakness. But then, human weaknesses have always be available for exploitation by unsavory individuals. My case involves just that. Therefore, in my particular case, the blame can be specifically attributed to one individual...Dan Burros!

(continued on next page)

The American National Party is Dissolved! (continued)

Dan Burros is a very important part of my story. In fact, without him, there would be no story. He is a diabolically clever schemer and a master of intrigue. A person who has not a sincere or idealistic bone in his weak frame. He is completely lacking in the necessary attributes to prevail or exist in an atmosphere of courage and idealism because of a mental infirmity and a defeatist mania, and an inexcusable cowardice, which drives him to destroy those who do possess the required attributes, rather than see them succeed and exist without him. He is an egotistical and selfish little man who believes himself to be possessed of high intelligence, but who in reality merely parrots the work of others and whose craftiness, like the Jew, passes him off as "smart".

I will show you how Burros, with the influence of a Rasputin and diabolical scheming of a student of Machiavelli was nearly able to destroy the comradeship of the American Nazi Party, how he exploited my sincerity and idealism to turn me against the Commander and how he made me and Seth Ryan into enemies when we had once been good friends. This one individual was the cause of more harm to me and to our cause than a thousand efforts by the ADL to crush us because his damage and attempt to destroy came from within and was unseen. While he carried out his dirty work, he played the role of a patriot. Here then, is the story.

DIVIDE AND DESTROY...UNSEEN

One of Burros' first attempts to destroy came in the person of Roger Foss. Before I give the details of this particular case, it is important to go ahead of the story to a time when Burros, with methods to be outlined, gathered about himself a "clique" and sought to destroy Seth Ryan, an upcoming party leader. At first, I was not a member of the Burros "clique". By clever manipulation and exploitation of my idealistic nature, Burros was able to draw me into his clique and filthy web of conspiracy.

Burros' modus operandi: Burros' first and primary objective was to win my confidence, my trust and my friendship. He accomplished this in many ways, the most important being that he would show a sincere concern for me, and above all make it appear as though he were always working for my "interests". Once he had gained my trust and confidence, he put into operation the second and more devastating part of his evil plan. It is almost infallible. With mathematical certainty, the plan succeeded in creating hostility and hatred between two parties where none ever existed before. He would come to me and inform me that Seth Ryan was talking against me and working against my interests (Ryan of course, would be doing no such thing). I, believing Burros, would in turn put myself on guard against Ryan and work against his interests. Ryan in turn would become aware of my efforts to hurt him, and in pure defense to begin with, would start to work against me. Before long, we were both working

(continued on next page)

February 1963

to hurt one another, each thinking he was sincere and the other insincere! This would go on, slowly building up into a sort of "chain reaction" and exploding! The end result was that an open situation of hostility, conflict, intrigue and hatred between two parties, where none existed beforehand, would develop and come into existence!

By this fiendishly clever trick, Burros was able to create conflict and hatred between me and Ryan where none existed at all! In other words, my "worst enemies" were in reality my best friends, and my best friends had become my "worst enemies". Seth Ryan had no alternative but to "attack" me because I was attacking him. He was justified in every defensive measure he took.

(The only solution that I now see to prevent such a scheme from developing, is to stop the person who brings you information of another working against you, and have him and the other party confront one another to see who is telling the truth, etc.; or you should go to this other person, who is purportedly working against you, yourself! 99% of the time, this is never done, and the information that another is working against you is accepted at face value. This is mostly due to the fact that the person who delivers this "information" is one who has your trust and your confidence.)

Burros is obsessed with an irrational hatred of Seth Ryan that practically borders on insanity. I have never heard so much hate spoken and practiced against one man, as I have witnessed Burros speak and act against Ryan. Burros is the culprit who started the false rumor that Seth Ryan was a "communist agent". (Burros has even gone to the FBI and lied about Ryan to them). The reader will discover in "Startling Exposé of a Right-Wing Fink" that Burros, if anyone, should be labeled as an "agent".

While Ryan and I and other members of the "Hate Bus" campaign were in a New Orleans prison on a six day hunger strike, Burros was safely back in Arlington, Virginia hard at work plotting. This is the time he conceived of leaving Rockwell, taking me with him, and starting another party (this he later confessed to me in New York). While we were starving in New Orleans, Burros began to meet with my wife to enlist her in his plot. He succeeded in accomplishing this. Actually, my wife was more or less willing to join him since she had had some personal conflict with the Commander which made them enemies. Burros was quick to take advantage of this. While we went hungry in that filthy New Orleans dungeon, Burros and my wife planned how they would steal me away from Rockwell. He influenced my wife, and she sent me a telegram in prison telling me that she was leaving me because instead of staying with her and facing my "responsibilities" I had followed Rockwell and ended up in jail. Burros had her convinced that I was facing a very long jail term, which was not true. The telegram was calculated to split me from Rockwell, but it didn't work and I managed to keep my family together. In Louisiana, without Burros' influence, I sensed a slow but sure return of the friendship. Ryan and I had once shared (we were both in the same cell). In fact, in the beginning, before Burros went to work on us, Seth Ryan and I were good friends, even working for one another's interests. When Roger Foss lost his position as National Secretary, I pushed for Seth to become the Secretary (something Burros never forgave me for).

When we returned from Louisiana, Burros made an all out attempt to finish off Ryan. He concocted a monstrous lie that Seth Ryan had

(continued on next page)

February 1963

stated that the Commander was 'insane'. Burros even duped another fine Nazi, a commercial artist, although not a member-but who had a great deal of influence, to come with him to the Commander and "inform" him of Ryan's 'treasonous' conduct. The result was that Ryan lost his position as National Secretary; and Burros moved in as National Secretary. But here is where Burros underestimated Ryan. Ryan requested and was granted, an open hearing which everyone attended. Ryan hit hard and got to the bottom of who was responsible for having him lose his position. Like a roach that cannot stand the bright light, Burros was squirming. Burros was now more determined than ever to "get" Ryan. Little did I know, that as I sat on the porch during the meeting, that I would be the very instrument Burros was to use to satisfy his thirst for revenge. Burros kept coming to me and telling me of how Ryan was betraying our cause and had to be stopped; how he, (Ryan) was calling me a traitor; how the Commander was doing nothing to stop Ryan; etc., etc. Finally, with all the cunning at his disposal, Burros convinced me that Ryan was a traitor and that he was committing the greatest injustices against me that could only be rectified by physical encounter. Like Grandinetti before me, whom Burros used to attack Roger Foss, I was used to attack Ryan. While Ryan and I were slugging it out, Burros was lurking in the shadows, like the master puppeteer, grinning with evil joy at his ability to manipulate and bring about any situation he desired. He was playing a game of Chess, with me, Ryan and everyone else as his pawns!

The situation was becoming intolerable. There was hardly one day that went by without conflict, bickering and intrigue.

By his clever methods, Burros had me thoroughly convinced that Ryan was a traitor. When I became thus 'convinced', everything I did to oppose Ryan, I felt was correct and justified. Even when Ryan had gone to New York to clean up the mess that Luke Dommer had created, I thought the Dommers were loyal and that Ryan was wrong. I stepped in and sided with Luke Dommer against Ryan, believing I was doing the right thing. Afterwards, I was to learn that Ryan was actually cleaning out a den of traitors and do-nothings whom Luke Dommer was leading.

THE FINAL SPLIT WITH ROCKWELL

Burros worked on me until he finally convinced me that since we were "surrounded" by pseudo-idealists and traitors, it was our only duty to leave and go to New York and form our own movement so that our cause could succeed. At this time, I had decided to return to N. Y. myself to get away from the whole ugly affair. Burros was waiting for just such a chance to spring his idea of pulling out completely. He had managed to create an environment in which my idealistic nature was being torn apart and could not endure. He had me believing that Rockwell was not truly sincere since he tolerated a "traitor" such as Ryan. I felt betrayed and became disillusioned. I gradually came to lose my faith and belief in Rockwell.

I remember now, how Burros bragged, after we had come to N.Y., how he worked on me to pull me away from Rockwell in spite of my wife and Grandinetti's doubts, since I was fanatically dedicated to Rockwell. I even believed Burros had "saved" me! A few weeks before we were to leave, I wanted Burros to come with me to confront Rockwell to tell him exactly why we were leaving. Burros found a thousand excuses why HE should not confront the Commander. Burros did

(continued on next page)

not want the Commander to know he was leaving with me. (Burros was thinking and planning far ahead. His reason for not wanting to confront Rockwell, was to make it appear that it was I who was dragging him away, and not he who was actually dragging me away. He thus was clever enough to leave the "door open" just in case he needed to return! I went before the Commander and told him that I no longer believed in him and that Seth Ryan was behind my reasons for leaving. Burros was present at this confrontation...now that I think of it, he was present on every occasion that I confronted Rockwell during the "clique" fights. His very presence prevented Rockwell and myself from talking and discussing things informally as we once did. His presence also prevented me from letting the Commander know that Burros was leaving too.)

When I left Rockwell, I was broken hearted. But, I was still fanatically dedicated to the white man's cause. I sincerely, although mistakingly, believed Rockwell had turned out to be insincere and a phoney. It took me more than a year to slowly realize my mistake and to finally end up writing this story. Both Rockwell and I felt betrayed by the other. We both labored under false illusions. Burros planned our 'break' just at a time when Rockwell desperately needed him to run the printing press on which we were printing the Commander's book "This Time The World!" Burros planned to thus sabotage the book. He even wanted me to NOT sign over the press, and instead take it with us. (This I simply could not do, and Burros did not push it, less he reveal himself completely). Note: the press had been purchased in my name.

In New York....Burros slowly reveals his true nature..

In N. Y. I set about in absolute sincerity and devotion to our cause to do the job I believed that Rockwell was not going to do. Little did I know that both Burros and Grandinetti were not motivated by idealism and sincerity, but were really motivated solely by their hatred and jealousy of Rockwell and their inability to make the grade in Arlington. (Here I must point out that Grandinetti, unlike Burros is not malicious. In spite of his selfishness, he had stood by me loyally on many occasions. He picketed alone for my freedom while I was locked up in Hackensack, N.J. on a ten-day hunger strike. Burros refused to come along for fear of being arrested! Burros used Grandinetti to destroy another of his enemies, Roger Foss. He managed to manipulate Grandinetti into provoking a fight with Roger. This led to a party court which resulted in Foss' demotion which ultimately led Foss to leave the party. Thus Burros put one of his hated opponents out of the picture. Burros was delighted. Without lifting a finger, he had gotten Grandinetti to do all the dirty work. Foss eventually returned to the Party. He is among the most fanatically dedicated fighters and workers in the cause. The man just never seems to run out of energy. This is but one more instance in which Burros caused hostility and hatred where it should never have existed. Eventually, he would even get Grandinetti to betray me.)

Over the year we operated the American National Party, Burros sought to operate by every 'safe' means conceivable. This meant NO mention of the Jew, printing of useless anti-communist literature, and avoiding clashes with the enemy that involved the risk of jail! This was not my idea of fighting! So, almost immediately, a personal-

(continued on next page)

ity clash began to develop between us.

Burros' cowardly personality was in conflict with the courageous atmosphere I was trying to create. During the year, I had to battle to get things done! Burros' behavior kept demonstrating to me, over and over, he did not have our cause at heart. One time he refused to come to an important picket because he wanted to stay home to watch a ball game!

Busy with the affairs of the group; my family; eking out a living; too preoccupied with every day affairs to consciously put the truth about Burros together, my sub-conscious took over and stored all the bits of information away. Not until I was to end up in jail where I would have nothing else to do but to think, would I begin to finally put the pieces together and find the whole truth.

As time went on, I became more and more aware of Burros' insincerity and lack of true idealism. His presence and influence, constantly around me, prevented me from seeing through him immediately. Not until the Englewood episode did the beginning of the end of his influence occur.

ENGLEWOOD AND THE FINAL CLASH

Paul Zuber, an NAACP agitator was going to hold a "mass" meeting in the all-black 4th ward of Englewood to demand nigger "rights". For a very long time, Zuber and his black hoarde had been pushing on the white people of Englewood. There were dozens of "racist" groups in N.Y. City, but not one of them lifted a finger to at least protest the nigger agitation. I decided to do something about it. I knew in advance that any attempt to peacefully protest, carried the risk of jail. That's why I think most of the other "racist" groups were reluctant to act. The Freedom Riders and others of that ilk are always ready and willing to go to jail fighting for what they believe. If we are not even able to match this fanaticism, we should quit!

I decided to go to Englewood. At this, Burros revealed himself more than he should have. He went into a sickening, cowardly rage. He argued up and down that we should avoid jail... "it wasn't worth it"...etc., etc., ad infinitum! I never saw him behave like this.

Stepping into the raging Englewood controversy proved to be the catalyst needed to put our group before the public eye. Zuber went into an hysterical fit. The police panicked. The radio blarred with news of our intention to come to demonstrate against Zuber and built up the imminent clash between the forces of race-mixing and racism.

We made our appearance, marching right up to the entrance of the park where Zuber was speaking. I was arrested and put in jail. The operation was a success. I had gotten the heretofore unknown group on the radio, on the T.V. and in the newspapers where millions learned of our existence and opposition to the race-mixers! With this kind of success and employment of similar tactics, even involving risk of jail, we would have ultimately moved out ahead of practically all the other groups. Motivated by idealism and absolute sincerity, I moved ahead with other plans to attack the enemy.

This was too much for Mr. Burros. It was getting to hot for him. The Englewood episode was in complete contradiction to his weak, cowardly and insincere nature. He had no intention of allowing the group to be anything more than a "club" to satisfy his own irrational quirks!

(continued on next page)

With the success of the Englewood episode, I gained a great deal of prestige. Burros measured the Englewood demonstration, not by the huge amount of publicity obtained, but by the amount of mail and contributions we received. (These were very small, and thus Burros sought to point out the "uselessness" of such demonstrations!) Nevertheless, I went ahead with other ideas.

Before we had gone to Englewood, Burros had the gutless nerve to want his name blocked out as Editor of KILL magazine on all copies we were taking with us. Only a few weeks ago he pushed to have himself made Editor. He claimed it was in "tune" with his "personality". (Burros, to cover up his true cowardly nature, and "prove" his manliness, is forever posing as a 'terrible' sadist and always talking about killings, torture, etc.)

Burros tried every approach to dissuade me from moving into areas that involved the risk of jail, beatings, etc. His true nature was coming through strong. Too strong for me not to notice. His influence began to wane. I began to enjoy this new freedom from his domination. Our very natures were clashing! Burros COULD NOT survive in the atmosphere of courage and idealism I was creating.

The big break came one night while we were gathered in my apartment. Burros began to shriek and make demands! He shouted, ranted and raved. Finally, seeing that he could not get what he wanted, he ran out of the apartment screaming... "I have no more confidence in you! I quit!" But what he really meant was: "I can't control you any longer... my spells don't work anymore!"

IN CONCLUSION

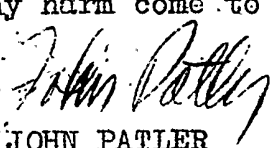

I hope that I have found the words necessary to express myself and explain what has happened to me. I believe that it was meant for me to spend those 54 days in jail. Because of those 54 days in jail, I have truly found myself. Without any outside influence, I was able to wipe away the fog that was blinding me. I now know what it is like to be religious. I feel truly reborn. I have sinned and have made my confession. Now I am clean, with myself and those others whom I have harmed while imprisoned in the evil web of conspiracy spun by the despicable traitor, Dan Burros.

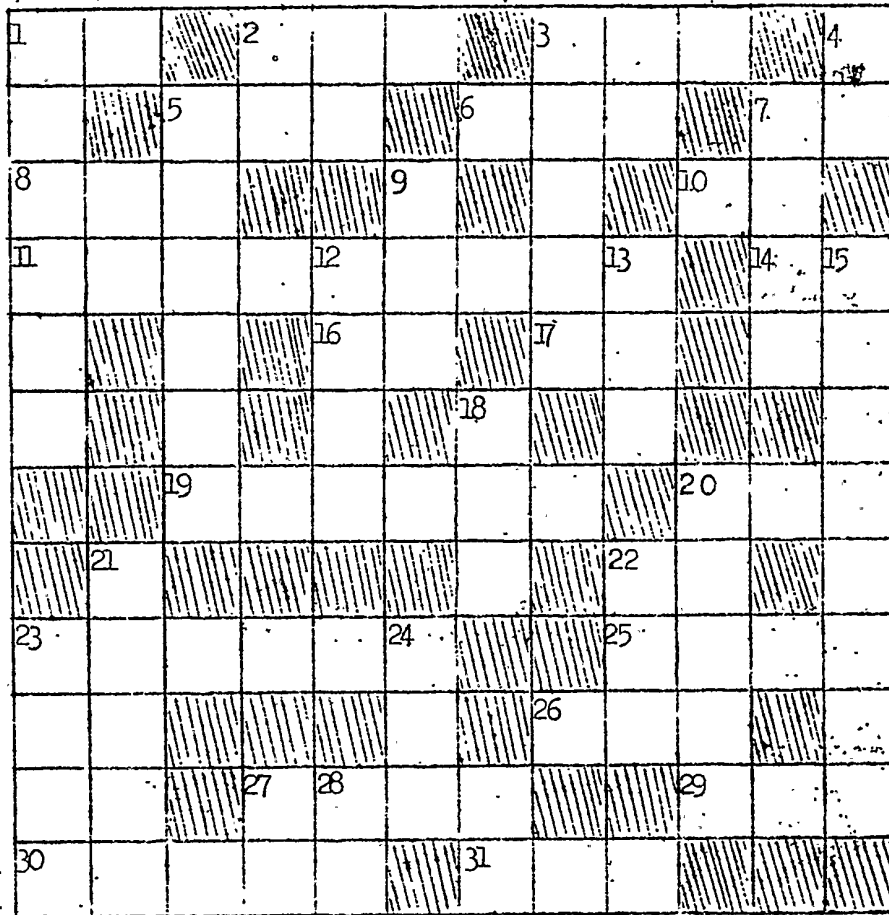

It may sound nutty, but I believe that a power, greater than all of us, has allowed me to see the light at this time when everyone is unmercifully and wrongfully attacking the Commander. The Commander is our only hope. If we lose him, we lose our last chance to win. We must guard and protect him with our lives. Providence has sent him to us... without him we will fail.

I know there will be those who will attack me for what I say here. But I do not care. They are of a temporary nature and will fall to the wayside as we move forward to save our people and our land.

I would rather die, than see any harm come to Lincoln Rockwell. To this cause, I dedicate my life....

Note: there will be those who will think I wrote this to get back into the Amer. Nazi Party. This is not so. I have no right to ask for this.

Special Editorial: ROCKWELL IS RIGHT!

Note: While I was imprisoned in the Dutchess County Jail in Poughkeepsie, N.Y., I wrote a lengthy analogy dramatizing the similarity between the struggle of the early Christians for the victory of their idea to the struggle of Commander Rockwell for the victory of the National Socialist idea. For the sake of brevity, I have excerpted the main points of the analogy and further edited them to be printed in this issue of Kill magazine.

History is loaded with important lessons. I think, in order that we can better understand Commander Rockwell and his role in American and World History, and his proselytizing of the masses to a so-called "hated" idea, i.e., Nazism, is necessary for us to go far back into history, after the crucifixion of Christ and about the time of St. Paul.

After the death of Christ, and the scattering of his followers, what was left of his movement went into hiding. His followers knew it meant certain persecution, torture and death if they openly professed their belief in Christ or his symbol, the cross. Christians who were "exposed" or captured were thrown to the lions in the collesium, there to be torn apart and eaten. At this time, Christianity was the most "hated" idea on earth! The cross was the most "hated" symbol! Anyone that was a Christian never dared to state so in the open for fear of being attacked! Instead, Christians of those days met secretly and safely deep down in the dark catacombs. Here, safe from the Roman soldiers and the angry mob that did not understand them, they could freely speak and express their love and belief in Christ and the cross without fear of being harmed. LETTERS TO THE EDITOR

Note: Below I have selected some of the many letters that I have received for answering. I regret that I am unable to answer all the interesting mail sent in. Because of the radical nature of this magazine, and therefore for the protection of our readers, I have used initials in lieu of full names of those sending letters to this column. I will include your full name if requested. Also, I reserve the right to edit your letters when necessary.

Dear Mr. Patler:

Is there any truth to the rumor that Dan Burros is a crypto-Jew?

Signed: S.R.

Dear S.R.:

I have heard this rumor. I have investigated the matter and I have found no proof that he is a Jew. Also, I have found no proof that he is not a Jew. What do you think?

Dear Mr. Patler:

Could you tell me who draws those terrific cartoons for the "Rockwell Report" and the identity of the person who signs his initials "J.S." to the cartoons?

Signed: E.F.

Dear E.F.:

I'm surprised! There can be only one person with the initials "J.S." who can draw like that...JULIUS STREICHER!!

Dear Mr. Patler:

Who is really behind the smear on you, Rockwell; Seth Ryan and the National Committee to Clear the Name of Senator Joe McCarthy that appeared in the "Catholic Tablet".

Signed: G.H.

Dear Mr. G.H.:

The smear you mention was printed by Frank Capell of Staten Island who publishes something called the "Herald of Freedom". The person who is really behind the smear is Luke Dommer leader incognito of a tiny club called the "Nationalist Party". Luke Dommer should not be confused with Paul Dommer, his younger brother who is sincere although under the influence of his brother Luke. Luke claims to be an anti-Communist, yet he spends most of his time smearing those of us who are fighting Communism.

Dear Mr. Patler:

Is it really true that you named your first son after the famous Nazi martyr Horst Wessel?

Signed: G.C.

Dear G.C.:

Yes...I named my first son Horst Wessel. He was born on December 4th, 1960, has blond hair and blue eyes and will be 12 years old in '72.

That's all for now...!

Rockwell is Right (continued) In order to further prevent persecution of their secret society, and to better disguise themselves, they substituted the symbol of a fish for the symbol of the cross. So went the early movement of Christianity...hiding, whispering, sneak-

~~Rockwell is right~~ (continued) -ing, being secretive and
disguising itself.

Until one lone man came along, Christianity, or what was left of it after the death of Christ, was facing inevitable extinction. If Christianity could not come out into the open where it could win a following among the masses so necessary to its triumph, but instead remained hidden in secret catacombs, it was doomed. What was left of Christianity would have been kept alive by its small circle of secret followers, but once they died, the idea would die with them.

But then, one great man made his appearance at just the right time. He was a man who had the insight to see the uselessness of hiding and "fighting" for an idea in secret, and the courage to come out into the open and fight. He alone had the courage to hold aloft the "hated" symbol of the cross. He openly proclaimed that Christ was right and he fought for the victory of Christianity. This then, was St. Paul.

Because of what he did, his name has been carried down to us through the countless centuries. Of course, there were those who even opposed St. Paul. They who did, argued with him to give up his "futile" open espousal of Christianity, and not to use the "hated" symbol of the cross. They argued that disguising the cross and using a fish symbol instead, and "fighting" secretly in catacombs was the only way that Christianity could win. They told him that his methods and open use of the cross would destroy their chances of success and that the people would never accept it. But St. Paul would hear nothing of this. He fought and worked openly while the others hid and talked and accomplished nothing. Needless to say, history has shown us that St. Paul was correct in what he did. Without St. Paul, we could only wonder what would have become of Christianity.

With one exception; St. Paul's fight hardly differs from Commander Rockwell's battle. The first is that most people, although agreeing with the comparison of St. Paul's struggle to that of Rockwell's, will say: "What about the war? -my husband, or my son, or my brother or my relative (whatever the case may be), was killed fighting the Nazis! We fought a war against Hitler and the Swastika!" But here we overlook the most important answer to all of this "we fought a war against them" propaganda...the very man who is today leading the American and international Nazi movement, left Brown University to join the U.S. Navy to go to war to fight Hitler and to stop Nazism in the same way that the masses who fought for Christ's crucifixion thought they were doing the right thing at the time, but who later realized that they had killed the very man and movement that was fighting for them, as Rockwell and millions of others are beginning to realize. Rockwell went into the navy as an enlisted man, rose through the ranks to become a full Commander and a pilot. He helped kill Germans! He helped to destroy Hitler!...now think of that for a while...he actually helped to destroy Hitler. And now, today, 1963, Rockwell is risking his life fighting for the thing he once fought against.

Today, like St. Paul of yesterday, Rockwell has come out into the open to fight for the truth...to hold up high the most hated symbol.

continued....

of our time...the Swastika! -just as St. Paul held up the most "hated" symbol of his time...the cross. And just as St. Paul forsaked the safety of the catacombs, the doomed to failure sneaky and secret "fighting" for Christianity and the disguising of the cross with a fish and other symbols -Rockwell has forsaked the countless safe and secret right-wing groups and methods that have always failed. Because of this, Rockwell is being attacked and smeared by the very people he is trying to save. But truth and destiny are on Rockwell's side. His success and survival is proof of that. Someday white people all over the earth will revere the name of Rockwell just as they revere the name of St. Paul.

Three major reasons which motivate attacks and smears against Rockwell:

1. FEAR 2. JEALOUSY 3. INSINCERITY

1. Fear: Fear does funny things to people. It makes them say and do foolish things. For more than forty years the right-wing in America has been "fighting" and failing! Rockwell has succeeded where they have failed.

Instead of talking, Rockwell has acted! He has performed! He is fighting every day and night...on the streets and in the courtrooms, in the jails and on the picket lines.

These things that Rockwell does, fills the right-wing with fear. The right-wing is afraid that sooner or later their followers will begin to wonder how come Rockwell is out in the streets FIGHTING while they are inside where it is safe! The fear I speak of here, is the fear the right-wing leaders have of being exposed as do-nothings. How will they explain to their followers why they are not also out there fighting.

These right-wing "leaders", if they are not willing to fight, sacrifice or go to jail as the left-wing is always willing and ready to do, then they do not deserve to "lead" anything.

These right-wing "leaders" are in dreadful fear of the precarious position Rockwell places them in. In order to keep their following, their comfortable and safe organizations, and the enormous amounts of money they are making, they must find an "excuse" for Rockwell's fighting and their failure to fight. Hence, they smear and attack Rockwell as an agent and as a worker for the enemy, hoping this will help them keep their following.

2. Jealousy: Rockwell has succeeded where others have failed! He has succeeded in doing the things that the right-wing knows should be done, but lack the guts to do themselves. They are jealous of Rockwell's success, and they stupidly hate him for this. Rockwell is using the only antidote to Jew-

continued.....

Communist treason, and that one thing is...National Socialism and the swastika! Rockwell is defeating the reds with the very thing the right-wing has foolishly and cowardly rejected. The reds have brainwashed us and scared us away from using the only thing that can defeat them...National Socialism! They have gotten the right-wing to RUN like a bunch of scared rabbits every time they point their finger and yell NAZI! The right-wing is like a dying man who keeps refusing to accept the only "injection" that will save his life because he is afraid that the "disease", which is killing him, will smear him and "link" him to the man with the antidote who is trying to save his life!!!

One of the more important reasons the right-wing is envious of Rockwell is because his very presence and existence is a constant reminder to them that his activities are responsible for the so-called "right-wing revival". Until Rockwell came on the American scene as an open Nazi, the right-wing was an unknown, insignificant bunch of fogies hiding out in cellars. After Rockwell made it safe to "spit" in the eyes of the reds by coming out into the streets and fighting as an open Nazi, the right-wing, like a bunch of battlefield ghouls, came creeping out of their holes AFTER the battle had been won and it was safe for them to make their "stand". The right-wing owes its "revival" as well as its survival, though they will never admit it, to Lincoln Rockwell!

3. Insincerity: When the right-wing attacks and smears Rockwell, it helps the enemies of the United States. Rockwell can save our nation...but he cannot do it alone! He must depend on the right-wing for a supply line. The right-wing leaders are selfishly trying to cut off support to Rockwell and his troops who are on the front lines fighting for us! If the right-wing leaders were really sincere about desiring victory over communism, they would help Rockwell, who has done MORE in FOUR years than they have been able to do in FORTY!

The least they could do is to stop attacking Rockwell, and to leave him alone. But, they won't! Their selfishness and insincerity will not allow them to. Rather than see us win victory and save the white race, and in order to enjoy a little more temporary safety and comfort, these do-nothing rear-end "patriots" will go on smearing and trying to stop any sincere movement that wants to do something more than just talk!

It is almost as if these right-wing "leaders" do not want victory! It seems that they are only interested in having own individual groups, licking stamps, sending out literature, making money, and of course talking. This is how they expect to win? Do you think George Washington would have won the American revolution if he had decided to mail out literature instead of taking action?? Washington faced DEATH if captured. What are the right-wing "leaders" willing to face? Do you know of any that are willing to risk

their lives for our cause? Rockwell and his men are the ONLY ones ready to sacrifice their lives for our people! We can truly measure absolute sincerity by the risk and sacrifice one is willing to make for the cause he claims to be fighting...Rockwell is the ONLY one willing to risk the ultimate sacrifice! Those who are unwilling to equal that sacrifice, have no right to lead or ask people to follow them!

To hell with the right-wing! To hell with TREASON!

Let's get rid of this 'ball and chain' and MOVE AHEAD!

As we hurtle towards the end of this century, the four thousand year struggle between good and evil is reaching its climax. It is now or never for the white race! We must win by the end of this century, or we will cease to exist as a race by the end of the next century. We will become as extinct as the do do bird. Our beautiful, creative, minority race of white people, responsible for all the great things on earth, will disappear, and with our passing, a great darkness will descend upon this earth and we will have only ourselves to blame. By refusing to fight to survive, we shall have forfeited our right to exist.

Unity Pays Off! (continued)

towards its goal. Either one of two things is going become necessary to prevent a Communist take-over. Either the right-wing must become united (which I think is impossible) or it will be up to one single group to outgrow and outlead the others. Time (forty years to be exact) has shown that the former is an impossibility. The latter is our only hope.

As a result of the success of uniting, even temporarily, in order to procure my freedom from prison, most of the people who accomplished that objective, have gotten together to form a non-partisan committee to help racists, in any way humanely possible, who have been imprisoned fighting for our cause. The committee will be called: "National Committee of Right-Wingers to Aid Victims of Political Persecution". Some will think that we cannot be effective without thousands of dollars and a huge legal staff. When it becomes necessary to dig a hole, you don't wait until you have a gold-plated shovel before you dig...you get down on your knees and dig with what you have...your hands! Even a simple letter, written to a fighter in jail would mean more than anything. There are dozens of things we can do without great sums of money, to boost the morale of our jailed fighters. We can send tobacco, candy, cards, tooth brushes, encouragement, etc. The Committee accepts no donations. If you want to help, send us your name and address. We will give you the name and address of a jailed fighter. You take over from there. We will help all racist fighters of all racist groups, favoring no particular group. COMPARE THE "MAN" IN THE WHITE HOUSE**WITH LINCOLN ROCKWELL**

President Kennedy and Lincoln Rockwell are approximately the same age. Consider their backgrounds, and their present situations.

Rockwell made a record high score on his college entrance test, and was an above average student without trying.

President Kennedy studied hard in college, but was nevertheless an average student.

President Kennedy's so-called bravery on PT-109 was no greater than that of Rockwell's and thousands of unknown G.I.'s during WW II.

Rockwell today, while expounding his beliefs regarding the dangers to his country, comes face-to-face with mobs he knows want to kill him; he voluntarily risks his life for his country.

Rockwell's program is said to be a "foreign" ideology because it was instituted in Germany.

President Kennedy, however, is enforcing an imported ideology that is totally alien to American principles. Rockwell's "foreign" ideology is at least in accord with Christian civilization.

The Kennedy administration ignores Rockwell's need for protection in the exercise of free speech. Yet the President's brother spoke freely, with the protection of the Department of Justice behind him, when he promised Africans that a Negro would probably be President of the United States within 40 years. (It is commonly understood that Africa is as foreign as Germany).

Kennedy's family is protected by government police day and night. Rockwell lost his beloved family through lack of protection--while fighting for his country.

Rockwell has been honest to the public in regard to his marital status. Has Kennedy?

Kennedy's family was fabulously rich. Rockwell did not have this advantage. Kennedy has never lived according to the doctrines he is enforcing. Rockwell suffers every day for what he believes.

COMPARE THESE MEN! By ordinary American standards of honesty and bravery, which of the two is better qualified to be in the White House?

"OPERATION DECOY" cuts down
nigger crime!

Because of the heavy amount of rapes, muggings and robberies being committed in New York City, the Police Commissioner instituted a means of virtually halting such crimes by disguising policemen as women.

Most of the offenses have been committed against white women by niggers and puerto ricans.

The officers, disguised as women would then take up positions in crime ridden areas. Niggers, thinking they had found an easy victim to molest, received the surprise of their warped lives when a police .38 was stuck in their face instead! Countless black criminals were thus removed from the streets. The results of "Operation Decoy" have been to cut down criminal acts against defenseless white women in many parts of the city where it had been unsafe to even go out to the grocery store.

To the Police Commissioner and the courageous officers who have served in "Operation Decoy", KILL magazine extends its thanks and congratulations for your efforts to halt the black criminal scourge that infects our city.

Unfortunately, this editor does not think it will be long before the NAACP and other agitators for nigger "rights" will be down the Commissioner's back saying Operation Decoy "discriminates" against persecuted negroes!

KILL magazine will gladly accept all news clippings dealing with nigger crime against the white people. Credit given if requested by the sender.

Committee formed to fight for free speech!

A new committee has been formed called the Citizens Free Speech for Rockwell Committee. The purpose of the committee is to procure for Commander Rockwell the right to speak against treason in New York City; to legally prevent any further denial of this basic Constitutional right; and to embarrass those who deny him this right. The Importance of Killing

By DAN BURROS

The enemies of the white race would emasculate us by having us believe that our sound instincts are some horrible heresy called "racism", and any attempts of the white race to defend itself are called "murder" and "war crimes".

Let us cast aside notions that have been planted in our minds by a thorough system of brainwashing. Away with hypocrisies and lies! Let us face the truth!

Man is a killing organism! He must kill to survive. He must kill to advance.

Do these statements shock you? Let us examine the truth. When man first appeared on this earth, he killed initially for his food. He was faced with fearsome natural enemies. He slew these enemies to become the leading animal of the planet. Then civilization began to emerge. Did man stop killing then? No...quite the contrary. The best killer became master of the tribe. Not the wisest, nor necessarily the most strong, but the best killer became master. Other qualities were only important to the extent that it contributed to his killing prowess. The tribe that was most efficient at killing mastered others forming the great civilizations

Baiting Crackpots

The Importance of Killing (Continued)

When a killer tribe became soft and forsook killing, they were overwhelmed by more virile killing societies.

The enemies of the white race have been trying to destroy it, by weakening the white man's will to fight, (which of course means to kill). Let us rip aside this veil of lies and hypocrisy.

The white man became master of this planet through killing. His mastery has now been challenged. To this challenge there is but one answer...to become master he had to kill! To survive and remain master, he must kill again. Let us show them who is the natural elite...who is the world's greatest killer!

White man! Unsheathe your terrible sword! Slay your enemies...Kill! Kill! Kill!

Now of course we do not advocate any white man go into the street with rifle or knife seeking enemies. At this time, this is a trifle impractical. The white man must organize! Only in unified action is there strength.

White men! The American National Party offers you the leadership and organization you need. Join us, and regain your rightful birthright. We will build a mound of corpses of traitors from which you can glimpse the great future. Only through organization and attainment of political power, can the traitors be annihilated on a grand legal scale.

The American National Party will lead the white race to regain its rightful place as nature's elite and master of the world.
